METAL DETECTORS
American Made since 1950

Treasure found by Spectra V3 users...
Today, every White’s metal detector is built with the same philosophy my family started the company with over 50 years ago, “Give our customers the world’s best metal detectors and build them right here in Sweet Home, Oregon.”

We’re proud of the quality and performance built into every White’s metal detector. And we’re proud to remain a “Made in the U.S.A.” company!
FEATURES

- On-board Quick Reference Guide
- Language - Spanish, French, German, Russian, Turkish, English
- Loop Selection - More accurate depth measurements when using accessory coils
- HD Full-Color Display
- 9 New Turn-on-and-Go Hunting Programs
- 3 x 3 Target I.D. System™
- Wireless SpectraSound® Headphones (optional)
- 3 Optimized Hunting Frequencies
- Live Controls for Real-Time Adjustments
- 10" DD Waterproof Search Coil
- Selectable Ground Filters
- Color-Keyed Disc Pattern
- Adjustable Recovery Delay
- Dozens of Expert Menu Options
- NiMH Rechargeable Battery System
- Adjustable Backlight
- Owner Registration (Software Embedded)
- Two-year Parts and Labor Warranty

**3x3 TARGET ID™ SYSTEM!**

New ways to interpret target information using ALL of the data collected from each detection frequency!

The Search screen’s SpectraGraph™ displays each of the 3 frequencies: 2.5 kHz, 7.5 kHz, and 22.5 kHz.

Once you’ve detected a target, Analyze shows target size and characteristics at each frequency.

Finally, the Pinpoint screen shows signal strength at each frequency.

**SEARCH**

**ANALYZE**

**PINPOINT**

The next big thing in metal detection is here! V3i takes treasure hunting to a whole new level of performance and depth.

V3i is equipped with plenty of new treasure-finding features including wireless headphones, HD color display, and an array of languages just to name a few. These are sure to make your hunting more fun than ever. But the true measure of a better metal detector?

“Does it go deeper? What are you finding?” And here’s the answer: V3i users are digging older, deeper coins, relics, and jewelry. In places hunted time after time with other top-of-the-line metal detectors!

$1499.95
msrp without headphones

$1799.95
msrp with SpectraSound® headphones

FEATURES

- **8 Preset Hunting Programs**: Coin, Coin & Jewelry, Salt Beach, Relic, Prospecting, Deep Silver, Hi Pro and Demo
- **3 Optimized Hunting Frequencies** - Detect at 2.5kHz, 7.5kHz, and 22.5kHz
- **On-Board Quick Reference Guide**
- **Live Control Bar** - Adjust features with just a key stroke - while you search
- **SpectraGraph® Target Signature** - Displays target info provided from 3 frequencies to decide if a target is worth digging
- **Four Audio Modes** - Standard, All-Metal, Mixed Mode, Pinpoint
- **Optional Tone I.D.** with up to 191 tones
- **Pinpointing & Depth Reading**
- **8 Key Features** - Program, Discrimination, Sensitivity, Audio, Frequency, Ground Tracking, Filter & Speed
- **High-Resolution Display** - Backlit 320x240 QVGA Color Display
- **Wireless-ready**. Optional SpectraSound® wireless headphones
- **Eclipse 9.5” Waterproof Search Coil**
- **Two-year parts and Labor Warranty**
- **AA (alkaline) pack with batteries included. Rechargeable NiMH system available.**
VX³ combines Spectra® performance and Coinmaster® simplicity. Just turn it on and you’re off and hunting.

If you want the top-of-the line metal detector, and you’d rather just have the most asked-for adjustments and leave the rest to the VX3. The VX3 goal is simple: A high-performance detector that’s as simple to use as a bank ATM. Here it is. The proven Spectra® platform. With 8 hunting programs, and the essential adjustments like audio, discrimination, and sensitivity. It all comes down to treasure-finding. And VX3 has proven itself worthy of the Spectra® name.

Dale on his first time with the VX³...

I wanted to see was just how turn-on-and-go VX³ really is. I turned it on, switched to Coin and Jewelry mode and started swinging.

Not 10 minutes in, I get a hit, shows 4" deep, SpectraGraph lines up all nice and pretty and I started digging. WOW! Out pops an 1818 Large Cent. My first! I haven’t read the manual or used a White’s machine before, but I know I am going to love it!
FEATURES

Backlit Display: High-efficiency backlit display for hunting in low light conditions.

Tone ID: Seven tones in the Coin & Jewelry Program. I.D. different targets before you dig.

Ground Grab: Provides a convenient way to update ground tracking from a locked setting. Or, from a tracking setting, temporarily lock ground tracking for multiple passes over questionable signals.

3 separate programs: Unique target responses, display info, and audio frequencies.

  - Relic: Specifically ID’s buttons, buckles and bullets. The display offers VDI range of -95 to +94, target blocks, relic target labels, battery check, overload alert and depth reading. Three options for Tone I.D.
  - Prospecting: Iron Grunt for targets with high probability of being iron. Display offers VDI range of -95 to +94, % probability of IRON, ground phase, battery check and overload alert. A real gold machine metal detector designed to Jimmy “Sierra” Normandi’s specs.
  - Coin/Jewelry: Display offers VDI -95 to +94, Target Blocks, Coin/Jewelry/Trash-target labels, battery check, overload alert, depth reading and Tone I.D. Also available is knob-adjust discrimination, gain, and threshold.

Automatic Ground Balance: Simple, fast, and accurate.

3 easy-adjust controls:

  - GAIN maximizes sensitivity and depth.
  - THRESHOLD allows you to hunt with a slight hum or hear only the sound of detected targets.
  - DUAL control functions differently in each program.

Operating frequency: 14 kHz

12” Waterproof Spider Search Coil

Drop-in Battery Pack: 40-hour operation from 8 “AA” batteries. (Optional Nicad or NiMH Rechargeable systems available, sold separately.)
MXT PRO combines popular new features with legendary MXT performance.

An all-new keypad ... plus Tone I.D., Ground Grab, backlight, and more! The versatility of 3 completely separate hunting programs, with the added deep-detection of White's proven 12" coil spider. MXT PRO is sure to be a new favorite of the weekend prospector, coinshooter, and the relic hunter.

It is totally incredible and exhilarating to find Civil War relics that have been underground for almost 150 years and there is still more to be found!

For a first time user, I couldn’t be more pleased with White’s and their products. I guess you can say that I’ve got the fever and I’m hooked!

Greg, North Carolina
FEATyRES

9 1/2” Waterproof Spider Coil

Drop-in Battery Pack: 40-hour operation from 8 ”AA” batteries. (Optional Nicad or NiMH Rechargeable systems available, sold separately.)

I bought my first metal detector last month - an MXT. What a month it’s been ... cannonball, 1901 barber quarter, 1874, 1899, and 1892 Indian Heads, an 1892 V nickel, a shield nickel, and many other relics and over 70 clad coins. I believe in beginners luck, and I’m hooked on the Whites MXT. Thank you for a great product- that a person just starting out could have these great finds in their first month.

Bryan in Illinois

The MXT has quickly become my “go-to” machine for hunting coins and relics around old home sites.

Kris, Indiana
MXT is 3 metal detectors in one.

A versatile high performance detector that’s as comfortable hunting for coins in the park as it is relic hunting an old battle site. Plus, it’s designed by prospectors for the tough task of finding gold. MXT™ combines easy operation with all the performance and versatility you need to find coins, rings and jewelry, relics, and gold nuggets.

“I want to do a little prospecting, but I also want to hunt for coins and try a little Civil War relic hunting.”

MXT is your detector!

Want to know more about MXT? Read about MXT online at: www.whiteselectronics.com Field Report, Engineering Guide, and Customer Stories
DFX’s “sharpshooter” approach to multiple frequency concentrates the power for maximum depth and dead-on target info.

DFX transmits 16 powerful frequencies and processes 2 concentrated, voltage-packed frequencies. The result? Optimized depth and target information.

FEATURES

- **9 Turn-on-and-Go! programs.** Coins, Coins & Jewelry, Jewelry/Beach, Relic, Prospecting, Deep Silver, Hi-Trash, Demo, Hi-Pro. Use the Pro-designed hunting programs or create your own custom programs.

- **Multiple Frequency Operation.** Optimal ground penetration! Use 3 kHz, 15 kHz, or both at once.

- **DSF™ Digital Signal Filtration.** Change your ground filtering to optimize depth in mineralized grounds.

- **Sweep Speed Adjust.** Higher settings for areas with few targets, and lower settings for trashy areas.

- **Hot Rock Rejection.** A complete accept/reject range.

- **10 Basic Adjustments and 34 Pro Options.**

- **Complete Visual Display.** Target icons, VDI numbers, SignaGraph* target signature, and depth reading.

- **Automatic Ground Balance with AutoTrac®.** Tracks and adjusts to changing grounds as you hunt.

- **High-definition megapixel display.**

- **Powerful, waterproof 12” spider search coil** for optimum depth and versatility. (Optional Eclipse accessory coils.)

- **Slide-in Nicad Battery System.** Up to 15 hrs. of hunting on a charge. Backup penlight pack included.

- **Two-year Parts and Labor Warranty.**

WhitesElectronics.com
Choose DFX for all-out horsepower to find those older, deeper targets.

DFX is legendary in its ability to find treasure; older, deeper, smaller items that other detectors pass over.

DFX brings together sophisticated microprocessor technology, and turn-on-and-go simplicity. You’re out hunting right away, but there are plenty of adjustments, too.

White’s patented multifrequency method partners with the target I.D. to “see through” minerals in the ground and detect coins, jewelry and relics other detectors miss. Hunt in 3 kHz or 15 kHz (the two best frequencies for finding treasure) or use both together for unequalled hunting.

Dozens of features come together in the DFX™ to create one of the world’s best metal detectors. It’s built on White’s proven digital platform, with the features that give you more flexibility to find it all!

$1199.95
msrp

I am so amazed that the DFX just keeps finding coins time and time again. Thank you, White’s, for making the best metal detectors in the world.

Robin in New Mexico

DFX 300
Andy Sabitsch, Lost Treasure magazine-
Less than 20 minutes after getting started, I hit a solid signal that produced a low-pitched tone and, after digging down nearly 12”, I pulled out a nice Colonial-era flat button. I was impressed at the response the TDI had produced on a target that was that deep and covered with layers of tall, salt marsh grass. (Read this complete TDI field test, and another on prospecting at whiteselectronics.com)

Hip and chest-mountable!

FEATuRES

• Pulse Delay control labeled for best performance settings · Small Gold, Wet Salt, Large Target.
• 3-Way Target Conductivity Selector allows variable audio to hear low, high-conductive targets, or both.
• Volume Control. Get extra sensitivity for tiny targets and still keep volume at a comfortable level.
• Frequency Control adjusts for hunting near powerlines, microwave or other environmental interference.
• Battery Life L.E.D. light.
• Waterproof 12” spider search coil.
• Two 14.4 V Lithium-Ion Rechargeable Battery Packs. Home wall charger and car fast-charger included.
• Two-year Parts and Labor Warranty.
Finding gold was just the beginning! TDI was originally designed for prospecting; now optimized for exceptional performance for relic, beach, even coin hunting.

Professional-level ground-balancing, pulse induction detection. Unlike any other metal detector on the market today, the TDI is capable of remarkable depth and extreme sensitivity in the worst grounds.

FEATURES

• Full-control Ground Balance. Quickly balance out the iron mineralization of hot rocks, black sand, and other tough grounds.

• Adjustable Pulse Delay - Settings from 10 microseconds (best for finding gold nuggets) to 25 microseconds (for relic, coin and beach hunting).

• Variable Audio Select with Ground Balance “ON”

• 3-Way Target Conductivity Selector allows variable audio to hear either only low conductive targets like most gold nuggets, or high-conductive targets like silver coins and large relics, or both. This unique ability aids in identifying trash, too.

$1599.95 msrp

Selectable Conductivity and Adjustable Pulse Delay are two features unique to the TDI. They not only aid the Gold Prospector in enhancing the detection of Gold, but allow Coin, Relic and Beach Hunters to enhance the detection of their specific targets as well.

• Threshold Control. Accurately adjust the audio to hear the smaller, deeper signals.

• Frequency Control adjusts for hunting near power lines, microwave or other environmental interference.

• Battery Life L.E.D. lights.

• Waterproof 12” spider search coil. Other accessory coils available.

• Two powerful 14.4 Volt Lithium-Ion Rechargeable Battery Packs included.

• Two-year Parts and Labor Warranty.

Available only thru TDI-certified White’s dealers. Call 1-800-547-6911 for a TDI dealer in your area.
FEATURES

LIGHTWEIGHT & BALANCED
Just 3 pounds with 7.5” coil, 3.5 with 10” coil.

FULL-CONTROL GROUND BALANCE
Quickly balance out the iron mineralization of hot rocks, black sand, and other tough grounds

ADJUSTABLE PULSE DELAY
Settings from 10 microseconds (best for finding gold nuggets) to 25 microseconds (for relic, coin and beach hunting)

VARIABLE AUDIO SELECT WITH GROUND BALANCE “ON”

3-WAY TARGET CONDUCTIVITY SELECTOR
Allows variable audio to hear either only low conductive targets like most gold nuggets, or high-conductive targets like silver coins and large relics, or both. This unique ability aids in identifying trash

THRESHOLD CONTROL
Accurately adjust the audio to hear the smaller, deeper signals

FREQUENCY CONTROL
Adjustable for hunting near power lines, microwave or other interference

NIMH RECHARGEABLE BATTERY PACK
Up to 6 hours of hunting. Backup “AA” pack included.

WATERPROOF 7.5” OR 12” SPIDER SEARCH COIL
Other accessory coils available

TWO-YEAR PARTS AND LABOR WARRANTY

Also available with 7.5” dual field coil
Powerful pulse induction detection in a compact package!

PI power provides unbeatable depth and sensitivity. TDI SL is simpler to set up than many other PI detectors, with the features for prospecting and relic hunting.

Digger Bob writes on the TDI SL ...

I finally got out to one of my favorite spots in the high Sierra's. This spot has yielded many nice nuggets over the years but has produced nothing the last several times. I decided to see what the TDI SL could do in an area we never hunted because of the trash. I hoped the TDI could knock off at least half of the iron. Well, it did, but there was an abundance of .22 bullets everywhere. I dug one after another, some shallow, some deep. As I was digging yet another one, I noticed that it was a bit deeper than the rest. Finally, at about 8 inches it was out and in my hand. I was shocked to see this big dirty lump glowing back at me. Wt. of the nugget - 2 dwt., with some nice character.

$1249.95 msrp with 7.5” coil
$1299.95 msrp with 12” coil

Selectable Conductivity and Adjustable Pulse Delay are two features unique to the White’s TDI & TDI SL. They not only aid the Gold Prospector in enhancing the detection of Gold, but allow Coin, Relic and Beach Hunters to enhance the detection of their specific targets as well.
FEATURES

• **Automatic Ground Balance** with Fast Tracking eliminates ground minerals in a snap! Improved performance in all kinds of ground conditions.
• **VDI** - Visual Discrimination Indication numbers readout to provide precise target info. A top-of-the-line White’s feature!
• **Adjustable Notch Discrimination.** 9 notches cover the full target range.
• **Back-lit Display** with Sensitivity Graph, target ID, VDI number, Depth Reading and Battery Strength.
• **VCO Pinpointing** gives a higher pitch as you approach the target.
• **Beach Mode** for increased performance on the hard-to-hunt ocean beaches.
• **9-inch waterproof spider search coil.**
• **Long-life, snap-in “AA” battery pack included.**

All of the treasure-finding Prizm 5G features below.

• **Development**

Just wanted to say thanks for building a quality metal detector. It has provided me with many hours of enjoyment and more treasure than I expected to find.

Kevin, Minnesota
The 6T combines high-end features like Auto Ground Balance and VDI numbers with Prizm simplicity!

The 6T is rugged and lightweight for all-day hunting. See what’s in the ground and how deep to dig on the easy-read display. Adjust the DISC control up and down depending on where you’re hunting. Use low settings in yards and on private property. High settings filter out junk in high traffic areas.

6T is loaded with all of the proven Prizm features, plus the latest in metal detection circuitry and software. The result? A detector that’s fun to use and finds more treasure!

$699.95
msrp

PRIZM 5G special features:

Ground Balance Adjust - Easy-set control for more sensitivity and depth.

MultiTone™. Deluxe Tone I.D. Hear instantly whether it’s a nail, ring, or quarter! 8 distinct audio tones.

VCO Pinpointing. Voltage Controlled Oscillation gives a higher pitch as you approach the target. A simple and intuitive way to pinpoint. Prefer standard pinpointing? It’s here, too!

$549.95
msrp

FEATURES

• Signal Balance Control - Adjusts the “Receive” signal to allow use almost anywhere - regardless of mineralization or outside interference
• Easy-to-read Meter - Read signal strength
• Race track Antenna System and State-of-the-art professional circuitry
• Adjustable Ground Balance - The only cache detector with the ability to reject ground minerals for deeper detection
• Push-Button Retuning
• Drop-in C-Cell Battery Pack. (Optional Nicad Battery Pack available.)
• Easy Tuning & Setup - Preset settings on each control for hassle-free setup
• Designed to find septic tanks, tools, and metal pipes as well as coin caches, treasure chests, and hordes of gold or silver
• Control settings labeled in both English and Spanish
• Instruction manual in both English and Spanish

Looking for coins and jewelry? M6 delivers turn-on-and-go ease and great performance.

Parks, playgrounds, yards - even the beach. Here is a high-performance metal detector that will find coins and jewelry in all kinds of ground conditions. Just 3 controls ...

DISC control with easy-set labels and 2 Preset settings
Full Range SENS Control - adjustable for maximum depth
High performance in all grounds - 2 Auto Trac Settings including one for saltwater beaches.

FEATURES

Target I.D.  Display shows I.D. of target as you hunt.  Hear and see targets!

Depth Reading  as you hunt. Detect a target and the screen shows you how deep to dig.

5-Range Discrimination  adjusts so you hear and see it all, or just the good stuff.

Adjustable Sensitivity  maximizes depth in varying grounds.

PinPoint/All-Metal Mode  makes locating targets a snap.

9-inch waterproof spider coil.

Rugged, water-resistant box. Just 2.5 lbs.

Low Battery Alert.  Two 9-volt batteries (included).

1/4” headphone jack.

Two-Year Parts & Labor Warranty.

My sons found an 18K Gold 1.24 Carat diamond ring. We were all so excited when I got it appraised at a local jeweler. The retail value of the ring is $11,000! Talk about a find of a lifetime!

Barry in Texas
I absolutely love my White’s detector and have already recommended it to friends who want to start in the hobby. It is definitely a hobby that pays.

Brian, California

Our most affordable detector - with treasure-finding features like Target I.D. and Depth Reading

Made in America
like every White’s metal detector!
Coinmaster & Coinmaster Pro feature a full two-year warranty.

$179.95
msrp

Upscale features like Smart Notch... at a great price!

Coinmaster Pro is designed for the cost-conscious treasure hunter who wants a “real” metal detector - not a toy!

$279.95
msrp
FEATURES

- Auto Ground Balance with Fast AutoTrac®. Tracks and adjusts while you hunt.
- Grab Pushpad sets ground balance in an instant.
- Iron ID Bar Graph displays the percentage probability of iron.
- Iron Target Analyzer determines the probability of iron as you sweep.
- “Follow-the-Paystreak” displays the amount of magnetic minerals in the ground.
- Optional Audio Iron ID “Grunt” comes at the end of the GMT’s “zip-zip” sound.
- Variable Self-Adjusting Threshold (VSAT)
- Waterproof elliptical “DD” search coil
- 48 kHz operating frequency (best for gold).
- “AA” Battery System for 40 hrs. of hunting. (Optional Nicad Rechargeable System.)
- Two-year Parts and Labor Warranty.

Silent Search: No audio threshold sound.
All-Metal Operation: Hear all metal targets. Especially good for prospecting, the GMZ has no iron or trash metal rejection.
Lightweight: The GMZ is lightweight and well-balanced for all-day hunting, 3.3 lbs.
50 kHz: Operating at the optimum frequency to detect small, medium, large gold.
Ground Rejection System: Easy-to-use manual ground rejection system.
Simple Operation: Only 3 controls - Sensitivity & Ground Reject knobs, Ground toggle.
Uses: Can be used for prospecting as well as industrial “All Metal” applications where small targets and high sensitivity to all metal types are desired.
Waterproof elliptical “DD” search coil.
“AA” Battery System for 40 hrs. of hunting. (Optional Nicad Rechargeable System.)
Can be used with any Goldmaster Series (48 kHz - 50 kHz) coils.
Two-year Parts and Labor Warranty.

I am very impressed with this detector and would highly recommend it to anyone.

Gold is where you find it.

My BH 300 finds so far this summer have paid for my detector 3 times over!

George
The Surf PI Dual Field combines turn-on-and-go ease with extreme depth and sensitivity.

The PI’s powerful circuit and dual field coil detect deep even in the worst beach grounds, like black sand.

FEATUES
• Pulse Induction detection for extreme depth on coins and jewelry, especially in saltwater and mineralized ground.
• Completely waterproof to depth of 100 feet.
• Adjustable Pulse Delay reduces black sand noise. Quieter on the beach, more targets!
• 12” dual field spider search coil. Near-neutral buoyancy.
• Sensitive to gold even at maximum depths.
• Gain control adjusts for your particular beach conditions so you get every inch of PI depth.
• Quick Target Recovery. Hear good targets even amid junk.
• Tuner adjusts threshold tone and checks battery.
• Variable sweep speed, from slow to fast with no loss of depth.
• Waterproof Piezo headphones.
• Auto. Ground Rejection.
• Power: 8 “AA” batteries.
• Two-year Parts and Labor Warranty.

The BeachHunter® 300 ignores junk and detects the treasure. Hunt in and out of the water.

I.D. detected targets in a snap with a glance at one of the color-coded LED’s.

... It took several scoops to finally reach the target, a vintage WWII .50 caliber machine gun shell casing over 15” deep.

WhitesElectronics.com
Sierra Madre/ULA-3 was designed for both industrial use and serious treasure hunting for large and deep treasures and metal items. The Sierra Madre has a waterproof 9 1/2" standard search coil. With the optional 15" search coil, it is capable of depths up to 5 feet. Two year parts and labor warranty. $599.95

Packed with both English and Spanish manuals.

PRL-1 is designed to locate property stake pins, valves, sprinkler heads, shallow pipes and cables. It is easy to use, and can be adjusted to either detect all metals or discriminate out junk. Waterproof 9 1/2" coil. Two-year parts and labor warranty. $399.95

PCL 600 accurately traces residential and commercial gas lines, water and sewer pipes and electrical cabling within access or service depths. 2 modes of tracing - "Clip-On" when you can access one end of the line, and "Inductive" when the line is completely inaccessible. $499.95

M100 Handheld is designed to meet and exceed the needs and specifications in today's security conscious world and complies with all National Institute of Justice standards for indoor/outdoor operations. $229.95

Bullseye II Pinpointer helps you recover your valuables without damage. Completely automatic. Vibrate or Audio modes. LED light. $119.95

Accessory Search Coils and Covers
Accessory coils help you customize your metal detector for your hunting conditions and the type of treasure you’re searching for. Generally, small coils work best in public areas with lots of trash, and for finding the smallest targets. Larger coils work well for larger, deeper targets or for hunting a bigger area. Some coils are specially designed for working in highly mineralized grounds. Pictured are some of our most popular coils.

For a complete lineup of coils and covers, go to: WhitesElectronics.com

Bullseye II Pinpointer
Pinpoint and recover your valuables easily and without damage! Completely automatic, with Vibrate and Audio modes and LED light. ......................... $119.95
